#### **Procedure:**

Isolate the hazard area and prevent entry. Wear self-contained positive breathing apparatus and full-fighting protective clothing. Decontaminate emergency personnel when leaving fire area.

#### **Fire Fighting Protective Equipment:**

Keep containers cool by spraying with water if exposed to fire. Extinguish preferably with foam (alcohol foam), dry chemical, CO<sub>2</sub> or water spray. DO NOT use soda or alkaline powder. Use as little water as possible. Dyke the area to prevent pesticide run-off.

---

### 6. ACCIDENTAL RELEASE MEASURES

#### **Personal precautions:**

Use personal protection recommended in **Section 8**.

### Human data:

If swallowed, may cause gastrointestinal tract irritation (discomfort, nausea, vomiting, diarrhoea).

### MCPA :

Shows moderate oral toxicity and is classified as an eye irritant. Cases of dermatitis have been reported and there is some evidence that some workers may be allergic to the chemical through pains, nausea, itching and burning of the skin.

### Dicamba:

Slightly irritating to rabbit skin. Does not exhibit any carcinogenic, teratogenic or other reproductive effects with the exception of slightly reduced foetal body weights in animal tests. Data suggests that Dicamba is not a mutagen.

---

## 12. ECOLOGICAL INFORMATION

### Assessment:
